Smoothie Factory

A Leader in Today's Juice Bar Industry

Smoothie Factory is an established, popular, and fast growing franchise retailer of real fruit smoothies, fresh squeezed juices, juice cleanse programs, authentic frozen yogurt, superfood bowls, coffees, and healthy lite foods. We believe in the simple concept of providing guests with reasonably priced healthy meal choices, served quickly, in attractive, clean, pleasant surroundings every day.

Perhaps the most impressive trait that Smoothie Factory possesses is its desire to continually enhance its franchising system, interior design, and brand image. Since the company's founding in Carrollton, Texas, USA in 1996, the Smoothie Factory brand has become recognized for excellence in service, product, and value.

Below are a few highlights of our founding, history, and amazing growth over the years.

OUR MILESTONES

our founding

Smoothie Factory was founded by James Villasana, an Olympic athlete who loved sports, health & wellness.

Before becoming an Olympic athlete, James struggled to find healthy and nutritious meal options served quickly and at affordable prices. While training, he knew the health benefits that whole foods and real fruits (without concentrates, purees, sorbets, or excessive sugar) could have on athletic performance and recovery. So he sought to create smoothies made at home with better ingredients, better nutrition, and a better taste.

He found himself making smoothies for friends, family, and team mates and offering advice on nutrition. They wondered why his smoothies tasted so good but the answer was simple. The best tasting and most nutritious smoothies come from using only real fruits – and lots of them. Over the years, they loved the taste of the smoothies so much, they encouraged him to open his own store and share his recipes with others.

In 1996, James Villasana opened the very first Smoothie Factory store which was a huge success, so much so that he began franchising the very next year. He and the franchise owners were committed to providing the best quality in every smoothie – a promise that Smoothie Factory has been delivering for over 25 years.

our niche

Smoothie Factory takes up a unique position in the health & wellness category

The market for targeted health & wellness beverages is a dynamic and rewarding one. The health and wellbeing trend that started in America in the early 1980's has contributed to the Juice and Smoothie industry's ongoing success, driven largely by the growing recognition of the instrumental role diet plays in a wide range of health conditions, athletic performance, and general well-being. In fact, the health & wellness category is one of the fastest growing retail categories in the world.

The US smoothie industry made more than \$2 billion from made-to-order smoothies, up more than 80% in five years.

Consumers, especially in the 18-24 year-old range, are embracing the product as a healthy and portable meal alternative.

In the past month, one in two 18-34 year-olds are likely to have enjoyed a smoothie.

The Smoothie Factory has taken its brand to the next level through extreme differentiation by developing new flavors and revenue centers. This keeps guests engaged and over the years has expanded its menu to include fresh squeezed juices, authentic frozen yogurt, and healthy meal options that are low calorie; 500 calories or less. Our functional food offerings create synergy and attracts additional guests beyond traditional smoothie aficionados.

In fact, the health & wellness category is one of the fastest growing retail categories in the world.

core menu

The combination of our products translate into much more than a Juice Bar

With today's diet lacking the nutritional benefits found in nature's fresh fruits, and with most adults consuming fewer than the recommended five servings per day, Smoothie Factory sought whole fruits with their rich nutritional values as the primary ingredients. This is to meet the growing demands of consumers wanting to achieve the recommended five serving of fruits and vegetables per day. Guests can enjoy over 30 different whole fruits combinations or create their own.

100% Fresh Squeezed Juices

Superfood bowls are a great way for our guests to experience the benefits of nutrient-rich superfoods while enjoying them in a pleasurable way. Superfoods are known for their health benefits that increase energy and vitality. Each bowl is prepared with a superfood base made with organic acai, pitaya, or coconut. Then fresh fruit fruits such as sliced strawberries, banana, kiwi, and mango are layered abundantly on top along with dry superfood ingredients such as goji berries, cocoa nibs, bee pollen, and more.

Superfood Bowls

Our delicious handcrafted juices are 100% freshly squeezed in each store ensuring guests enjoy the best possible flavor and nutrients. Our juices are never heat treated, free of preservatives, added sugar, and water so they can be enjoyed just the way nature intended.

100% Fresh Squeezed Juices

*The combination

much more than a

Our coffee is freshly roasted and responsibly sourced from our suppliers. Our diverse coffee menu has something for everyone. Choose from our hot, iced, frappe, and hot chocolate blends.

Fresh Roasted Coffee

Finding a healthy meal or snack that's not full of empty calories can be a challenge for consumers. Smoothie Factory has solved this by providing guests with a wide selection of fresh salads, sandwiches, wraps, healthy halo cups, and protein & energy balls.

Healthy Lite Foods

Our authentic frozen yogurt selection is made from fresh, pure, 100% milk without antibiotics or added hormones. Our distinct flavors and freshly cut fruit toppings are paired to be enjoyed together in harmony. Guests can choose between 6 rotating flavors and 36 fresh fruit and dry toppings daily.

marketing

Since 1996, Smoothie Factory and its franchise partners have built the brand smoothie-by-smoothie, guest-by-guest, and enjoys the word of mouth appeal of our stores. Our organized and unique marketing approach brings awareness to the Smoothie Factory brand, drives new guests to our counters, and help keep regular guests coming back for more.

Limited Time Offers

Smoothie Factory develops new smoothie and juice promotions every quarter to support our franchise community and keep things fresh and exciting for our guests. When a particular promotion is very well received, it is considered for permanent placement on our menu. In this way, we keep up with the latest trends and our guests judge whether or not the promotion should stay ongoing.

The Smoothie Factory Loyalty program is a digital format that allows guests to receive points based on store purchases. Guests can view their account, reward program, and points online as well as receive promotional e-mails and SMS messages with special offers and discounts to help drive traffic. The program also allows our store owners to determine which guests haven't visited in a while allowing them to push out special promotions to help bring the guest back in more frequently.

In this way, we are often able to offset expenses by up to 50% or simply double up on the amount of advertising. One of the best medians for this partnership is through direct mail wherein we target the zip code of each store location.

Guest Relations

Guest service is an overall philosophy with one purpose in mind – creating a positive experience for our guests. When a guest is not happy with our product, service, or experience, we ask guests to contact us by e-mail or phone so we can make it right and learn from our mistakes. Every complaint is personally handled by an officer of the company and then followed up at the store level
